## Surbiton High School: Ethos and Aims

### Ethos

- We are a vibrant learning community, which **inspires** every child to discover and embrace their individuality, to grow in their intellectual curiosity, and to enjoy their independence
- We acknowledge that there is no such thing as a typical Surbiton High School pupil and that impressive academic results are just one aspect in our rich tapestry of educational provision; therefore, we **encourage** every child to grow in compassion, respect and an outward looking attitude, living out the School's motto: *Amor nos semper ducat (May love always lead us)*
- We **empower** every child to thrive, developing social and emotional intelligence to become rounded and grounded in their character, demonstrating kindness and service to others

### Aims

- Surbiton High School aims to **inspire, encourage and empower** our young people to discover and liberate the very best of themselves, exceeding their potential in an intellectually rigorous and challenging academic environment, balanced with outstanding pastoral care and support

We achieve these aims through our *Charter for Happiness and Well-being*. Our children:

- are **inspired** to deploy their highest strengths to tackle all situations, developing a growth mind-set and a can-do attitude, equipped with the tools to maximise their positive emotions
- are **encouraged** to find their niche, to be fully engaged in educational activities and to meet the highest challenges that come their way
- are coached and **encouraged** to develop strong relationships, to be empathetic and responsive to the needs of themselves and others
- are **empowered** to lead a meaningful life, to be able to understand what their goals are and to know what they are striving for
- are **empowered** to draw strength from celebrating their accomplishments, in order to tackle new challenges

We achieve these aims through our inculcation of *Learning Habits*. Our children:

- are **inspired** in their thinking, to ask questions, to make connections, to imagine possibilities, to reason methodically and to capitalise on their resources
- are **encouraged** to be emotionally invested in their learning, persevering in the face of difficulties, noticing subtle differences and patterns, managing their distractions, and becoming absorbed in their learning
- are **empowered** to be fully involved in their learning, growing in interdependence, collaborating effectively, listening empathetically to others, and imitating their learning habits
- are **inspired, encouraged and empowered** to be productive, planning their learning in advance, revising and reviewing their progress, distilling important information, and developing their own meta-learning

## Examination Results 2020

### A-level Results

Surbiton High School staff, students and parents are celebrating another set of outstanding A-level results for 2020.

We are delighted with the overall results from this year for A-levels, and whilst our results are amongst the best we have experienced, more importantly, they are in line with our expectations and averages over the previous four years. For A-levels, the 2020 – 2017 average grades awarded are 25.1% A\*, 63.13% A\*-A and 97.75% A\*-C.

An impressive 94% of students have secured their place at the most competitive universities, including Oxbridge, Russell Group Universities, Times Top 10 Universities and Medical/Dental/Veterinary Schools. 87% of our students will be attending their aspirational first choice university. It is exceptional to see that 46% of our students are going on to study STEM subjects at university.

Oxbridge results continue to be exceptionally strong with at 4 students going on to read a range of subjects including Biology (2 students), Law and Theology, Religion, and Philosophy of Religion.

## Alis Value-Added Analysis 2020 Surbiton High School (1563)

### Institution Overview

Chart 1.1 SPC Chart - Results from all Qualifications

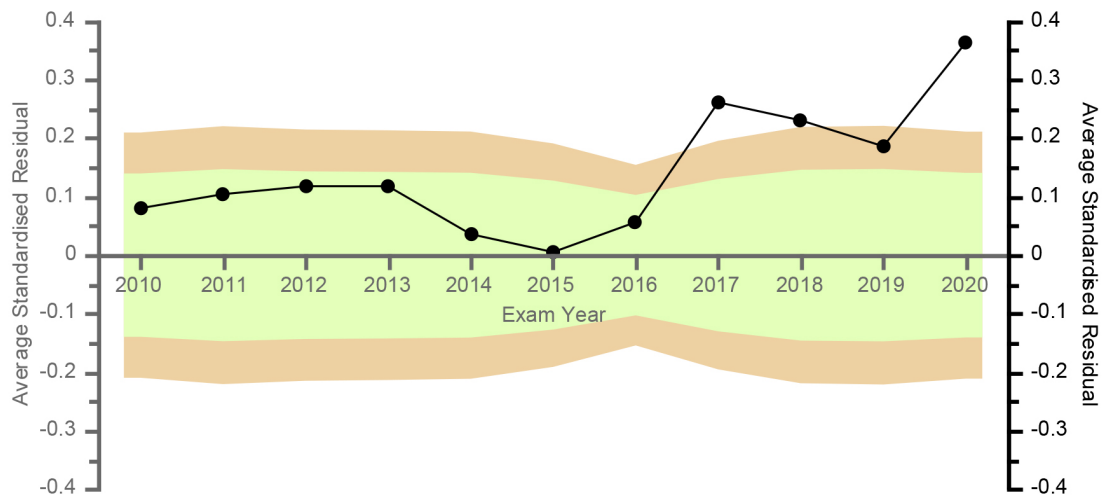

Chart 1.1 shows the value-added scores for Surbiton High School that have been analysed by Alis since 2010 and includes results from ALL qualifications. Data summarised for each qualification type can be seen overleaf. The shaded areas represent confidence limits, the green area a 95% limit and the tan area a 99.7% limit. If a value lies within a shaded area, then the value can be deemed as 'normal' whether it is negative or positive. It is only when the value falls outside the shaded areas that the value can be deemed significant, thus implying that some factor in the teaching and learning, external to the students, has contributed to the value.
