

SURBITON

HIGH SCHOOL

Presented by Ms Burlton, Artist in Residence | Normal running time: approx. 45 minutes

Since the beginning of lockdown, we have been experiencing so much of the world through a screen! The ways in which we use our electronic devices can restrict our bodily movements. Consider, for example, the daily movements of our hands; nowadays, we only seem to need them for typing, tapping, poking and swiping!

In this lively session, under our theme 'Who am I?', Ms Burlton will be encouraging you to reconnect with your body and to get to know yourself through a series of exciting and experimental drawing exercises. We will be experimenting with a variety of artistic materials which we have provided for you. In your Art pack, you will find the following items to help you:

A4 paper x 2

Pencil

Oil pastel

Charcoal

Paintbrush

Expect lots of silly movements and laughter from this expressive and energising workshop suitable for artists of all levels and abilities! All you need to bring to the session is a small cup of water and your willingness to try something new!
